Test kartice za sobu

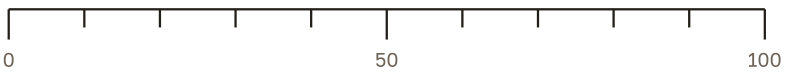

Room-test cards: which spots in the Gusinje room the phone recognises quickly and reliably, in which card size and light.

Crnogorski

1. **Štampa na 100 %** („Stvarna veličina“, ne „Prilagodi stranici“), na **mat** papir ili karton. Bez sjajne plastifikacije: odsijava prozor. Linija ispod mora imati tačno 100 mm.
2. Isijecite kartice po sivim linijama.
3. Počnite sa **S** karticama. Postavite po jednu pored svake stanice, tamo gdje bi stajala prava kartica: uspravno (oslonjena) ili položena, vidljiva s mjesta na kojem stoji posjetilac. Ne iza stakla, ne u dubokoj sjeni, ne na direktnom suncu.
4. Na telefonu otvorite stranicu (QR kod desno) u Chromeu ili Safariju i dozvolite kameru.
5. Kod svake stanice stanite gdje bi stao posjetilac, dodirnite **Testiraj mjesto** i 5 sekundi držite telefon prirodno, kao posjetilac. Zatim **Domet**: počnite blizu kartice i polako se udaljavajte dok je telefon ne izgubi.
6. Ako S ne prođe, probajte **M**, pa **L** na istom mjestu.
7. Ponovite **ujutro i predveče**, na svom telefonu, na **tabletu muzeja** i na bar jednom starijem telefonu.
8. Na kraju dodirnite **Kopiraj rezultate** i pošaljite tekst u chat.

English

1. **Print at 100 %** (“Actual size”, not “Fit to page”) on **matte** paper or card. No glossy lamination: it reflects the window. The line below must measure exactly 100 mm.
2. Cut the cards along the grey lines.
3. Start with the **S** cards. Put one next to each station, where the real card would go: standing (leaned) or lying flat, visible from where a visitor stands. Not behind glass, not in deep shadow, not in direct sun.
4. Open the page on the phone (QR code on the right) in Chrome or Safari and allow the camera.
5. At each station stand where a visitor would, tap **Test this spot** and hold the phone naturally for 5 seconds. Then **Range**: start close to the card and step back slowly until the phone loses it.
6. If S fails, try **M**, then **L** at the same spot.
7. Repeat **in the morning and in the evening**, on your phone, on the **museum tablet** and on at least one older phone.
8. Finally tap **Copy results** and paste the text into the chat.
